Reset Expired Admin Password

If password is expired navigate to the Settings drop down and then select Terminal Window

Settings 👻 Supf	٥
SYNC	
JOB STATUS	
SITES	
ORGANIZATION	
PRICING	
FUEL ZONES	
TERMINAL WINDOW	
	d

Use the drop-down menu on the left to select the site you wish to connect to then select Connect

Settings / Terminal Window		
Active Site 005-Test child user group 🕶	Connect	Disconnect

Once connected use the following commands to reset your expired password

"Login Admin" * The A in Admin is upper case*

Select "Y" for yes you are ready to change

Enter your current password "******"

Enter your new password "******" this password much be different from the last five passwords

Re-enter your new password "******"

If successful you will be prompted with Password has been successfully changed

You can now disconnect from the terminal window by selecting disconnect

If during the Enter current password phase it does not prompt you to enter a new password this will indicate that your original password was incorrect. You will need to start the process over by typing "login Admin" again. After five failed attempts you will be locked out for 30 minutes.

If unsuccessful in changing you might have typed the password differently on the enter and re-enter phase. It will prompt you again to for the new password.

After updating the password in the terminal window you will need to save this change in DX Fleet.

Navigate to Settings and the select sites

Settings 👻	SUPPO
